**SUNSHINE BIOPHARMA ANNOUNCES SUBMISSION OF AN Adva-27a
MANUSCRIPT FOR PUBLICATION IN A PEER-REVIEWED SCIENTIFIC JOURNAL**

Montreal, Quebec, Canada -- (MARKETWIRE) -- Sunshine Biopharma Inc. (OTCBB: SBFM), a pharmaceutical company focused on the research, development and commercialization of drugs for the treatment of various forms of cancer, today announced that it has submitted a manuscript detailing Adva-27a preclinical research results for publication in a peer-reviewed scientific journal. Adva-27a is Sunshine Biopharma's lead anti-cancer compound which has been shown to be effective at killing multidrug resistant cancer cells in vitro. Multidrug resistant cancer cells do not respond to any of the chemotherapy drugs currently in use for cancer treatment. The manuscript, which was prepared by Sunshine Biopharma scientists in collaboration with scientists from Binghamton University in New York and from Ecole Polytechnique in Montreal (Canada), contains a substantial amount of data compiled from experiments conducted by these scientists.

Safe Harbor Forward-Looking Statements

To the extent that statements in this press release are not strictly historical, including statements as to revenue projections, business strategy, outlook, objectives, future milestones, plans, intentions, goals, future financial conditions, future collaboration agreements, the success of the Company's development, events conditioned on stockholder or other approval, or otherwise as to future events, such statements are forward-looking, and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The forward-looking statements contained in this release are subject to certain risks and uncertainties that could cause actual results to differ materially from the statements made.
